EDUCATION

Vanderbilt University | Nashville, TN
B.A. in Computer Science and Economics

Expected May 2021

EXPERIENCE

Fidelity Investments

May 2019 - August 2019

Software Engineering Intern

- Designed and developed an internal tool used to monitor access for over 200 employees using Angular, Node.js, Express.js, and Oracle Database
- Automated financial transaction data retrieval on a Linux server by developing a program using Java, expediting the process by 150x
- Organized an event with a group to showcase Fidelity's internal enterprise app store to new hires

Fidelity Investments

May 2018 - August 2018

Systems Analyst Intern

- Partnered with colleagues to upgrade an internal tool that displays customer trade alerts using Angular
- Solved the tool's inefficiency issues by implementing new PL/SQL packages, reducing query times by over 50%
- Led Agile ceremonies and relayed business requirements from the client to the team

PROJECTS

StockLens

April 2019 - July 2019

Swift

- Published an iOS app on the App Store with a partner that scans company logos to display stock information, empowering beginner investors to explore and invest in the companies around them
- Utilized the Google Cloud Vision API to detect logos and the Alpha Vantage API to retrieve stock information

NBA MVP Predictor

June 2018 - July 2018

Python

- Created a logistic regression machine learning model to predict the National Basketball Association's MVP

Footwear Legit Check

July 2016 - August 2016

Java

- Built a sneaker verification app on Android that provides photo comparisons of genuine and unauthorized sneakers
- Amassed a total of over 7,000 downloads in 15 different countries

LEADERSHIP

Kicks 4 Care

November 2013 - June 2018

Founder

- Launched a nonprofit online store on eBay that sells exclusive sneakers, generating over \$10,000 in revenue
- Donated the proceeds to underprivileged children in the Indian villages Allampally and Varija

CogniCloud

September 2014 - August 2017

Co-Founder

- Co-Founded a patent-pending analytics solution for adolescents to streamline the concussion recovery process
- Pitched to a panel of investors and won the \$2,000 3rd Place Prize at the TYE Business Plan competition in Boston, MA

SKILLS

Languages: Python, C++, Java, Swift, JavaScript, TypeScript, SQL, HTML

Libraries/Frameworks: Angular, Node.js, Express.js, Bootstrap, Keras, Scikit-learn, Pandas
